

ERGO Snow MX

This modern kitchen is distinguished by class and a relaxed vibe. This is in part due to the wooden drawers and drawer layout. Do you like the elegant knobs on the fronts? The 65 cm deep worktop offers you additional workspace and makes it easier to clean the space behind the faucet. Furthermore, the hanging cabinets feature decorative moulding, which rounds off this magnificent kitchen with an elegant look. Good to know: the fronts are available in various colours and combinations!
